

Why not 2022 it?

Chefs chop, dice and then they stew it
Bankers wring their hands but always accrue it
Dusty, crusty old men in pubs & bars insist they once knew it
Farriers, leather clad, hammer, clang and then they shoe it
Crafty Japs and other such chaps can somehow bamboo it
And one of these days I'll mend my ways and I *will* get round to it
Once in Bombay but now down our way we shampoo it
Libarians with stern looks would lend us their books
and we would overdue it
And now you can glue it, screw it or even hew it
and everything else if you B&Q it!
But if none of the above applies to you
and all you want is make a drink or two
then don't feel down, don't be blue
trot up Tower Hill, join us - and ***Home Brew It!***

Our next get together is on Friday, February 25th
